

## Clark Forklift Part

Clark Forklift Parts - Performing globally, there are at this time 350,000 Clark forklifts and lift vehicles in operation, with more than 250,000 of those in use in North America. Clark has five main lines of forklifts across the globe, making it one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 unique models of lift trucks, with parts covering more than 120,000 particular parts for all of its automated equipment. Your regional Clark Dealer is your total source for availability of all your parts needs supplied by Clark Totalift.

Clark's exceptional Parts Distribution Stores are conveniently located in Louisville, Kentucky, which serves both their customers and dealers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Driven to provide the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing efficiency and benefiting performance.

Clark Totalift has a very outstanding worldwide support network. With over 550 locations worldwide, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their clients predominates the material handling industry.

Clark proudly remains an innovative leader of the industrial equipment industry, revolutionizing safety features such as the operator restraint system. This exceptional dedication to safety is at this time a customary feature on every forklift.

Clark has a unrelenting goal to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its manufacturing facilities. Furthermore, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any number of environmental restrictions, thus placing them in a prevailing industry position.

Clark has selected the system of "Lean Production" at all of its assembly facilities because this method is particularly economical and allows for minimal use of resources. Established to ensure maximum proficiency, this system is intended to find and acknowledge the most efficient ways for production plant stewardship. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

By working in concert, Clark's product suppliers and engineers communicate towards improving product efficiency while minimizing costs. The contemporary value engineering program combines modern product improvement and offers superior client support and service within the industry.
