

Rockwell Part

Rockwell Part - The company of AxleTech International is a large supplier of specialty vehicle drive-train systems and components together with off highway vehicles. They take great pride in being a preferred supplier to their customer base. AxleTech strives to exceed and meet their clients' expectations for service, technology, delivery and quality. They believe in working in an atmosphere which supports the highest integrity with empowered teamwork, together with a unyielding pursuit of results.

AxleTech International is a General Dynamics company. They believe strongly in actively applying principals of environmental stewardship and safety in how they do business. The company has put various programs in place to be able to articulate these values within their business policy. AxleTech happily shares this policy and welcomes interested parties to provide them with whichever questions or comments, since they are glad to promote and share this policy with a greater understanding of their efforts. They are very devoted to preserving and improving the surroundings. AxleTech has an EHS program which not only protects the environment but which even actively protects their neighbors and workers too.

AxleTech prides themselves as being an innovative drive-train solutions provider. They specialize in manufacturing and designing planetary axles meant for both military and commercial applications. These applications vary from airport ground support to construction equipment. AxleTech particularly designs axles in order to meet particular application demands. They have more than one thousand various axle specs in their current offering. With more than 100+ years of skill and history, AxleTech proudly supplies the most complete solution for whatever of your axle needs. The company is well known in several military and commercial applications. They offer complete axle assemblies used for aftermarket replacement requirements, together with servicing axle requirements for OE production. Their high mobility ISAS have added details that could be seen in the "ISAS" product selection.
